

## COVID 19 Disinfecting and Sanitizing is Here!

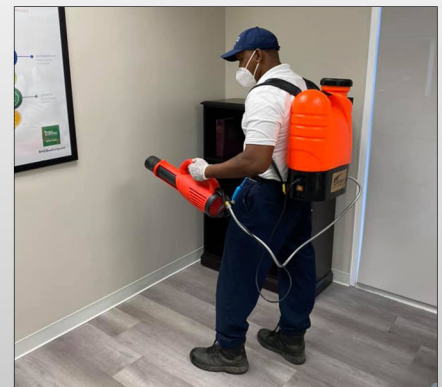

### Electrostatic disinfecting & prevention services. *powered by GERMSWEEP*

With **COVID** as part of our world, now more than ever, there is a need to keep work and home spaces safe for employees and customers. While developing a customized plan for our customers, we will deploy a CDC based process to test, electrostatic spray, wipe down and post test any and all areas that are in need of treatment or suspected of possible COVID-19. We utilize EPA approved materials to remediate your place of business; providing reassurances to your staff that they can return to a sanitized work environment that fights off bacteria and other harmful elements. Based on our post application tests, we can prescribe the appropriate depth and frequency for continued services.

- **Pre and Post Application Testing Performed**
- **Minimal Downtime**
- **100% Coverage**
- **Room to Room Treatment**
- **Non-Toxic/Environmentally Safe**
- **Kill 99.99% of Virus' and Bacteria, Including COVID-19**
- **EPA Approved Disinfectants**
- **D2 Certified Food Contact Surface Safe Sanitizer at 100 ppm**
- **Certified through CRMI/NAMRI**

*Our touchless electrostatic technology “wraps around” surfaces & objects, providing 3 times more coverage in the same amount of time as traditional spray bottles, buckets, and rags. The electrostatic applicator provides a broad-spectrum approach to disinfecting a complete surface area and an entire room like we have never seen before.*
